STaR Team Bulletin No. 14 – Early Childhood Education Reports Released
Wednesday, March 28, 2007

The SAIS generated reports for Early Childhood Education program participation and assessment are now available in the download area at the district/charter holder level and at the school level in the SAIS Student Detail Data Interchange.

SDEC71 Early Childhood Program Participation Report

SDEC71 identifies students whose current SAIS data indicates that they are participating in one or more preschool programs. Preschool students with disabilities are listed on the SDEC71 as participating in a program identified as Early Childhood Setting. The SPED Service Code is also displayed for such students.

LEA personnel should review the SDEC71 to ensure that all students who participate in an Early Childhood program are listed with complete and accurate information (i.e., program entry date, family income indicator, living in household indicator, mother/father employment status).

SDEC72 Early Childhood Assessment Report

SDEC72 identifies students whose current SAIS data indicates that they have taken a preschool assessment.

LEA personnel should review the SDEC72 to ensure that assessment results for preschool students reside in SAIS as required by ADE Early Childhood Education. Among other items the SDEC72 displays the name of the assessment that was administered, the assessment date and the assessment test scores reported to SAIS.

SDEC73 Early Childhood Assessment Search Report

SDEC73 lists any and all assessment results that reside in SAIS for an individual student. The assessment search requires the entry of a SAIS ID. The requesting school/district must have a valid membership in SAIS for any student for whom it performs an assessment search.

Whenever you have immediate need for assistance with specific issues related to SAIS, please visit our web site at <http://www.ade.az.gov/schoolfinance/star/> and click on "Request for SAIS Training and Assistance."
